Permanent Sample ID
(PSID)

Permanent
Identifications on
PLASTIC OR GLASS
With or Without
Tare Weights

- Excellent for Long Term Storage
- Eliminates Adhesive Labels - No Lost Labels
- Eliminates Weight Change Due to Moisture or Dried-Out Adhesive
- Chemically Resistant to Organic Solvents and Acid/Bases
- Scratch Proof
- Resistant to Temperature Extremes
- Automation Friendly
No Loose Edges to Stick or Bind

Sample identifications bonded directly onto labware. No adhesives required. PSIDs have similar chemical and physical characteristics as the labware itself. PSIDs are ideal for long-term storage at low-temperatures and harsh environments.

PRE LABELED

- On Glass or Plastic Labware
- Sample ID's (barcodes/text/logo/artwork)
- 1D and/or 2D Barcodes
- Standard or wrap-around format
