# Smart Labeler™

The new **Smart Labeler** prints and applies barcode labels directly on vials and tubes to increase your lab's efficiency and enable accurate tracking of materials, all at a touch of a button.

- Auto-adjusts to different tube diameters
- Labels tubes from 1.0ml to 50ml, including conical
- Adjustable tube height for exact label placement
- Auto-labels tubes using optional SL printing software or preprinted labels
- Choice of chemical-resistant or cryogenic labels

Patent pending
