

# You Can *ID*entify With Us *FusionBond Sample ID*

**Permanent  
Identifications on  
PLASTIC  
LABWARE**

- Excellent for Long Term Storage
- Eliminates Adhesive Labels - No Lost Labels
- Eliminates Weight Change Due to Moisture or Dried-Out Adhesive
- Chemically Resistant to Organic Solvents and Acid/Bases
- Scratch Proof
- Resistant to Temperature Extremes
- Automation Friendly  
No Loose Edges to Stick or Bind

Sample identifications bonded directly onto labware. No adhesives required. FusionBond IDs have similar chemical and physical characteristics as the labware itself. FusionBond IDs are ideal for long-term storage at low temperatures and harsh environments.

## **PRE LABELED**

- High contrast black-on-white or Color
- Sample ID's (barcodes/text/logo/artwork)
- 1D and/or 2D Barcodes
- Standard or wrap-around format

FusionBond Laser-etched
